What do you think? What's the problem? And how can I fix it? Dell U2312hm 75hz Driver It's urgent to me.. All drivers available for download have I bought a DELL U2312HM a year ago I was actually preparing to buy 2 new monitors as this model.

1. [dell driver](#)
2. [dell driver update](#)
3. [dell driver update utility](#)

I thought that maybe the display drivers are the problem, so I've reinstalled all of them again, but nothing got better.. It has horizontal lines waves The monitor's frequency is 60Hz at 1920x1080 When I do the colour test, the most affected colour is grey, followed by green and then white.. I need to have good monitors because I have lots of work, especially this summer.. You may need to update your graphics driver Depending on the type of system you use, please select one of the two options given below: 1: If you have a Dell™ desktop.. I've switched between multiple computers with very different setups and all I get is flickering.

dell driver
